2018 FOOTWEAR RANGE

our FOOTWEAR fits more FEET

REMOVABLE COMFORT FOOTBED

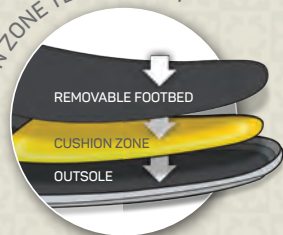

Every revere shoe comes with a removable contoured footbed, allowing wearers with custom orthotics to insert them with ease. Designed in collaboration with leading footwear and medical experts, revere shoes are compatible with most orthotics prescribed by your podiatrist. A deep-set outsole unit leaves ample room for your custom device to fit comfortably and seamlessly into any revere shoe.

STRAP EXTENSIONS

Selected styles of revere footwear come with a set of complimentary strap extensions, helping to ensure a perfect fit. Adding an extra half inch of adjustability, revere's strap extensions are low-profile and discreet, allowing you to customise the length of your straps without sacrificing any style.

CUSHION ZONE TECHNOLOGY

Walking in heels can be uncomfortable. revere's innovative cushion zone, between the footbed and outsole, ensures ultimate comfort at the ball of your foot while you walk in our heightened footwear. The cushion zone technology has been tried and tested and is perfect for wearing your shoes all day, every day.

FULL LENGTH FILLERS

3mm full length fillers can be used in conjunction with our inserts. The filler can be placed under the insert to provide a firmer fitting, if you are experiencing any slipping or movement. The filler can also be trimmed to ensure the perfect fit with our shoes, and can also be used with custom orthotics if required.

UNRIVALED FIT, ultimate ADJUSTABILITY

our SANDALS fit more FEET

REMOVABLE COMFORT FOOTBED

Every revere shoe comes with a removable contoured footbed, allowing wearers with custom orthotics to insert them with ease. Designed in collaboration with leading footwear and medical experts, revere shoes are compatible with most orthotics prescribed by your podiatrist. A deep-set outsole unit leaves ample room for your custom device to fit comfortably and seamlessly into any revere shoe.

STRAP EXTENSIONS

Each pair of revere sandals comes with a set of complimentary strap extensions, helping to ensure a perfect fit. Adding an extra half inch of adjustability, revere's strap extensions are low-profile and discreet, allowing you to customise the length of your straps without sacrificing any style.

FOREFOOT FILLERS

revere forefoot inserts are the perfect solution when 3/4 orthotics are required to fill your sandals and slides. We have used materials that can be trimmed or customised to fit. Our inserts provide a simple and easy solution to personalise the fit of your sandals, whilst providing full support and control of your orthotics.

STRAP TRIM MARKS

A select range of our sandals have built in trim marks to allow additional customisation of your sandals, where the straps are too long across the foot. Simply find the stitches on your strap and trim directly in front, and voila, you have a pair of perfect fitting sandals!

devoted TO STYLE AND COMFORT

The production of every revere sandal & shoe combines the use of premium quality materials and craftsmanship to produce our beautiful shoes by hand.

All leathers are hand picked and tested to guarantee they meet our strict quality requirements before entering production. Throughout the shoe production process, our QC inspectors control every aspect from stitching accuracy to leather thickness to ensure the highest quality and consistency of products.

revere shoes have been designed in collaboration with leading footwear experts to provide ultimate adjustability, plus our innovative strap extensions provide extra width when needed to support many foot types.

Throughout our entire collection, revere includes removable footbeds for those required to wear custom made orthotic devices. The extra depth unit allows for a wide variety of custom orthotics to be inserted without taking away from the stylish design of our sandals and shoes.
